

Organic Waste Management: Composting Knowledge Check

In the **GB Learning Library - Core Preparation Sessions**
this is Section 5.1 in Module 5: Management Strategies

1. What is vermicomposting?
2. What is the correct ratio of "Browns" to "Greens" in an active compost container?
3. Name 4 "Browns":
4. Name 4 "Greens":
5. Name 3 organic waste items that should NOT go into a compost pile:
6. Briefly describe a simple test to measure the maturity of a compost pile.
7. Why might animals be attracted to a compost pile? What is one possible strategy to minimize this issue?

8. Why might a compost pile smell like rotten eggs? What can someone do to correct this issue?
