

Activity – Reading a Pesticide Label

Use the *Triazicide*® label to answer the following questions.

1. What is the trade name of this product?
2. What type of pesticide is this?
3. What is the active ingredient?
4. What is the product's formulation?
5. What is the product's signal word?
6. What are some possible routes of entry for this product?
7. Is reading the entire label before using the pesticide required?
8. When can children and pets enter the treated area?
9. Can you apply this product in the rain?
10. Identify any restrictions for applying this product outdoors.

11. Are there any New York State specific restrictions you must follow? If so, what are they?
12. What sites can be treated with this product?
13. For the label-listed sites, identify some of the pests can be controlled for each site.
14. How much product do you apply to a lawn?
15. How do you apply Triazicide® to control ants that are invading a house?
16. How much product do you apply to a boxwood?
17. Can you use Triazicide® on summer squash? Why?
18. Is there a waiting period between the time you last sprayed and when you can harvest vegetables? If so, how long?

19. How do you store this product?
20. What are the hazards to humans?
21. What are the first aid instructions?
22. What are the environmental hazards?
23. What personal protective equipment do you need to wear when applying this product?
24. How do you dispose of an empty container?
25. How do you dispose of a partially filled container?
26. Are there any directions on how to clean the application equipment? Why or why not?
27. Who is responsible if the product is not used according to the label directions?
28. What does the label statement “*It’s a violation of federal law to use this product in a manner inconsistent with its labeling*” mean?
